## Panchakosha Vikas (Five-fold Development)

A keystone in Indian tradition

The child is a whole being with Panchako-shas or five sheaths.

The layers are Annamaya kosha (physical layer), Prana-maya kosha (life force energy layer), Manomaya kosha (mind layer), Vijnana- maya kosha (intellectual layer) and Ananda-maya kosha (inner self).

Each layer exhibits certain distinct characteristics. The holistic development of a child takes into account the nurturing and nourishment of these five layers.

Our program is designed to provide a balanced and integrated approach to learning and living that fosters creativity, curiosity, confidence and compassion.

We offer a variety of activities and experiences that cater to the different needs and interests of each child, such as arts, sports, music, yoga, meditation, nature exploration, community service and more.

Our goal is to help your child discover their unique potential and talents, and to empower them to become responsible and caring citizens of the world.

Join us today and let us help your child blossom into a holistic developer!
